**Subject:** APC EXAM 2025: EXTENSION of Validation Exam \*\*\*New Deadline: 30 November 2025\*\*\*

26 November 2025

Dear Training Officers and Training Office Administrators,

Please assist us in informing your APC Candidates that the deadline to complete the **2025 APC validation exam** has been **extended to 30 November 2025**.

Candidates who have received admission letters and their validation communication are encouraged to **complete this process as soon as possible** to ensure their laptop is ready and compliant.

- Candidates who used the SecureClient software during their professional programme exams this year, **do not** have to uninstall and reinstall SecureClient for the APC Exam.
- Candidates should however ensure that they have the backup software loaded.
- Candidates should not risk exam-day issues!

SAICA is **completing the last checks on eligibility issues for some candidates**, whereafter the admission letters and validation communication will be sent to those candidates.

Kind regards,  
Examinations Department
